DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 17-29, 31-45, 47-48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

Independent claim 17 now recites "in some instances selectively routing the active buyer based on the request data via multiple commercial transaction control systems to communicate with widely distributed vendors with capabilities to route calls between vendors to fulfill a request." Applicant points to paragraph 25 as providing support. However, this paragraph states that "[c]alls may be routed to the next available operator (buyer), for example, in the event appointments scheduled for a particular buyer last longer than contemplated, or another buyer familiar with that line of products may step in and handle the appointment."

According to Applicant's invention, vendors may schedule appointments with specific buyers (see paragraph 18). If all communication lines are occupied and there is a considerable backlog of calls or in the event an appointment scheduled for a particular buyer lasts longer than expected, the scheduled appointment can be handled by

another buyer (paragraph 25). There is not routing of calls between vendors. Rather the routing takes place between buyers. Moreover, as stated in the previous Office action, there is no description of such selective routing to another vendor after providing identified video and text to the active buyer.

Independent claim 33 similarly recites the above subject matter, not supported by the specification.

Should the new matter be removed from claims 17 and 33, the same rejections made under 35 USC 103 in the last Office action would apply.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
